

DISCOVER OUR PARKS

Play the Springfield Park District's "Discover our Parks" geocache game. This game uses GPS units to locate great prizes throughout Springfield parks. Players use specific coordinates to locate caches within different park district parks. The coordinates for all caches are listed below. Once you have located the cache, list the park in which it was found and the keyword found inside the cache. When all caches are found, return the completed form to the **Henson Robinson Zoo** at 1100 East Lake Drive. All forms will go into a drawing for the grand prize (a Springfield Park District Mega Pass). Other prizes include: "first to find" like t-shirts and daily admission passes.
