

SHAVING CREAM EARTH PROJECT

Supplies

1 Can of Regular Shaving Cream

Paper Plates or card stock Paper

Green and Blue paint

Something to scrape the paper with (I used a plastic ruler)

Container for the shaving Cream

Instructions

Cut a circle out of a paper plate or card stock.

Fill container with shaving cream, make sure there is enough to cover the bottom of the container.

Spread shaving cream over with spoon.

Dribble the two colors of paint all over the shaving cream.

Next swirl the colors around with the spoon until it has a marble effect.

Place the circle on top of the shaving cream, press lightly until circle is covered with colored shaving cream.

Lift up the circle and place on a tray, use your ruler or scraper and start at one end of the circle and scrap of the shaving cream entirely off the circle.

Now you have your earth!
